Company PR

STS Suido Technical Service (STS)

We are a unique company specialized in hidden leakage detection and related services for reducing NRW.
We have skilled and experienced engineers, and our experience is over 20 years.
Overseas it found that many of the leakage is present.(India, Vietnamese, etc.)

1. Water leakage investigation in distribution pipes and service pipes.

2. Training of Water Leakage Detection Methodologies

3. Selling water leak monitoring device, "L-chaser"

in detecting leakage

[Collaboration with meter reading]

Install L-chaser to the meter lid.

When the meter reader checks the water meter, checks L-chaser also at the same time. It shows that there is water leaks or not. It is very efficient to conduct not only a meter read but also check for monitoring leakage

4. Recent track records in overseas
